# APPLIQUE DE MARSEILLE

*Le Corbusier*

Applique de Marseille, designed by Le Corbusier in 1938/1939 for his Parisian flat in Rue Nungesser et Coli, provides direct and diffused light: two cone-shaped lampshades orient the light upwards and downwards, providing uniform and sharp light beams. The Mini version preserves the same allure in a compact version.

# LED/HALO/FLUO

## LAMPING

| | |
|---|---|
| Source | E27 |
| Total power | 2x52W |
| Emission | direct + indirect |
